

... come and join us!

The Maritime Cluster Northern Germany is the maritime industry network within the federal states of Hamburg, Lower Saxony and Schleswig-Holstein. Maritime Cluster Management's main areas of focus are the shipyard and supplier sectors, offshore technology and ocean engineering, as well as the link-up with shipping, shipping companies and port management.

The Maritime Cluster Management has the following functions:

- Providing information, communication and networking
- Supporting cooperation and implementing innovative ideas
- Planning and conducting themed workshops and working groups
- Providing market support for companies
- Supporting in education and training
- Public relations

We are your partner for:

- Innovative projects
- Transfer between industry, academia and government
- Promoting technology
- Internationalisation
- Promoting cooperation
