

### **What drives us in our work at Kraken Robotics**

- The opportunity to develop and apply your skills, knowledge and expertise to push the boundaries of underwater intelligence and investigation.
- We pride ourselves in helping government defend and make our oceans safe.
- We understand the importance of ensuring critical offshore energy and communications infrastructure is installed and maintained safely and efficiently.

If innovation drives you, and you want a career that makes a difference to the world, helping humanity overcome the challenges in our oceans – safely, efficiently, and sustainably – then come join us at Kraken Robotics.

### **Kraken Robotics – What we do**

By joining Kraken, you'll be part of a growing team of experts that design, develop and deliver high-resolution 3D acoustic imaging solutions using Kraken's innovative underwater sensors and robotics technologies. Kraken also develops a range of pressure tolerant, high-density, and environmentally friendly batteries, used to power underwater vehicles and robotics, used in underwater and deep subsea exploration

### **Our Key Markets:**

Defense and Ocean Safety

Offshore Wind Energy

Offshore Oil & Gas

Underwater Exploration

### **Kraken locations and how we work:**

Kraken Robotics is headquartered in Canada, and our teams are located at facilities locations around the world, including Germany, United States, Brazil, Denmark and the United Kingdom.

Kraken understands the changing needs of its employees, and how remote working helps strike a life-work balance, while encouraging professional and cultural collaborations.

Kraken is an equal opportunity employer focused on promoting diversity, equity, and inclusion and we value the diversity of our team that contributes to our company growth and development.
