

CU Innovation Lab *Intelligent Composite Production*

CTC we are composites
an AIRBUS company

On November 19/20, 2025, at the CFK Nord Research Center in Stade

Address: Ottenbecker Damm 12
21684 Stade
Germany

Moderation: N. N., CU & Dr. Constantin Hildebrandt, CTC

Composites United (CU) is proud to invite you to an Innovation Day dedicated to critical advancements in Intelligent Composite Production. This event is organized with the support of the CU working groups Digitalization as well as Artificial Intelligence. It will deeply explore the transformative power of Automation, Artificial Intelligence (AI), and digitalization within the manufacturing landscape. It is specifically tailored for industry leaders, pioneering researchers, skilled engineers, and forward-thinking innovators who are committed to revolutionizing production processes for enhanced efficiency, unparalleled precision, and crucial sustainability. In today's rapidly evolving industrial environment, embracing intelligent technologies is not merely an advantage but an essential step towards future-proofing composite manufacturing.

The event will feature an inspiring keynote address offering strategic insights, diverse presentations from experts and companies showcasing real-world applications and trends in intelligent composite manufacturing (including robotics, data-driven decision-making, and advanced analytics), and a significant technical deep dive by the Composite Technology Center's (CTC GmbH, an Airbus Company) "Laboratory for Intelligent Lightweight Manufacturing" (LaiLa) exploring their groundbreaking automated and AI-driven production research. This event is supported by the LaiLa project and the ResC4EU project.

We look forward to welcoming you! CU in Stade in November!

Agenda	Day 1, November 19, 2025, 11:00 am – 05:00 pm plus Evening Event
10:30 am	Registration, Warm-up with Coffee
11:00 am	Welcome & News from Composites United e. V. Marc Fette, <i>CTC GmbH</i> Constantin Hildebrandt, <i>CTC GmbH</i> N. N., <i>Composites United e. V.</i>
11:15 am	KEYNOTE - Artificial intelligence: Holistic strategy for aerospace industry Jay Stoltzenberg, Airbus
11:45 pm	Lunch Break with Networking
12:45 pm	AI Agents in Aerospace: Powering Smarter Ramp-Up & Sustainable Growth Erwin Siegel, Plataine
1:05 pm	Scan and Spray: AI-Driven Pose Estimation and Automated Robot Programming in Aerospace Coating Philip Koch, Fraunhofer IFAM
1:25 pm	Topic: Data acquisition and analysis along the entire process chain Dr. Joachim Starke, inno-focus
1:45 pm	Topic: Digital Optimization of Composite Production Processes Ingo Schlalos, SWMS
2:05 pm	Artificial intelligence in composite processing: from sensor data fusion to predictive quality control Alexander Scherer, Symate GmbH

2:25 pm Coffee with Networking

Split up into groups & transition to the CFK Valley Technology building

3:00 pm Demonstrations of intelligent Composite production

2 demonstration cases for each participant, 4 parallel sessions

- Stream 1: Fiber deposition – Session 1 & 2
- Stream 2: 3D Printing – Session 1 & 2
- Stream 3: Energy monitoring and simulation for factory design – Session 1 & 2
- Stream 4: Advanced analytics and knowledge-based decision making – Session 1 & 2

5:00 pm End of the tours

7:00 pm until 10:00 pm Evening Event @ Restaurant Die Insel in Stade

Casual dinner & drinks with lots of opportunity for networking. Enjoy a buffet dinner and some nice drinks in a traditional old timber-framed building and get in touch with participants, speakers and hosts!

Address:

Auf d. Insel
21680 Stade
+49 (0)4141 2031

hello@insel.restaurant

<https://www.insel.restaurant/>

10:00 pm End of Evening Event

Agenda Day 2, November 20, 2025, 8:30 am – 2:00 pm

8:00 am Registration, Warm up with Coffee

08:30 am Welcome

Marc Fette, CTC GmbH
Constantin Hildebrandt, CTC GmbH
N. N., Composites United e. V.

08:40 am Intelligent Models & Algorithms for Complex Decision-Making Across the Aerospace Life Cycle

Felix Gehlhoff, Helmut Schmidt University (HSU)

09:00 am Bringing generative AI into industries with Siemens Industrial Copilots

André Scholz, Siemens AG Digital Industries

09:20 am Nimbus – Framework for the digitalized Composite Production

Nico Liebers, Center for Lightweight Production Technology - DLR

09:40 am WILD CARD

Do you have an interesting topic to present at this event? Please contact us at bastian.brenken@composites-united.com

10:00 am Coffee break with Networking

Split up into groups & transition to the CFK Valley Technology building

10:30 am Demonstrations of intelligent Composite production

3 demonstration cases for each participant, 4 parallel sessions

- Stream 1: Smart Assembly – Session 1, 2 & 3
- Stream 2: Data supported joining processes – Session 1, 2 (ultrasonic welding) & 3 (adhesive bonding)
- Stream 3: Smart drilling and virtual reality – Session 1 (Smart Drilling), & 2 (Virtual Reality)
- Stream 4: Factory automation, testing & cyber security – Session 1, 2 & 3

1:15 pm **Resumé: Wrap-up and next steps**

Marc Fette, CTC GmbH

Constantin Hildebrandt, CTC GmbH

N. N., Composites United e. V.

1:30 pm **Transition to open-end Networking**

Distribution of Lunch Bags for the trip home.

2:00 pm **End of Event**

Supported by:

 Labor für intelligente
Leichtbauproduktion

 **dtec.bw**
Zentrum für Digitalisierungs- und
Technologieforschung der Bundeswehr

**Finanziert von der
Europäischen Union**
NextGenerationEU

 **ResC4EU**
RESILIENT SUPPLY CHAINS FOR EUROPE
