

Energy pioneers

Motivated by meeting the growing
global demand for energy
in a safe and sustainable way

Irene Kjærskov Pedersen
Senior Sustainability Advisor

1½ years in Semco Maritime

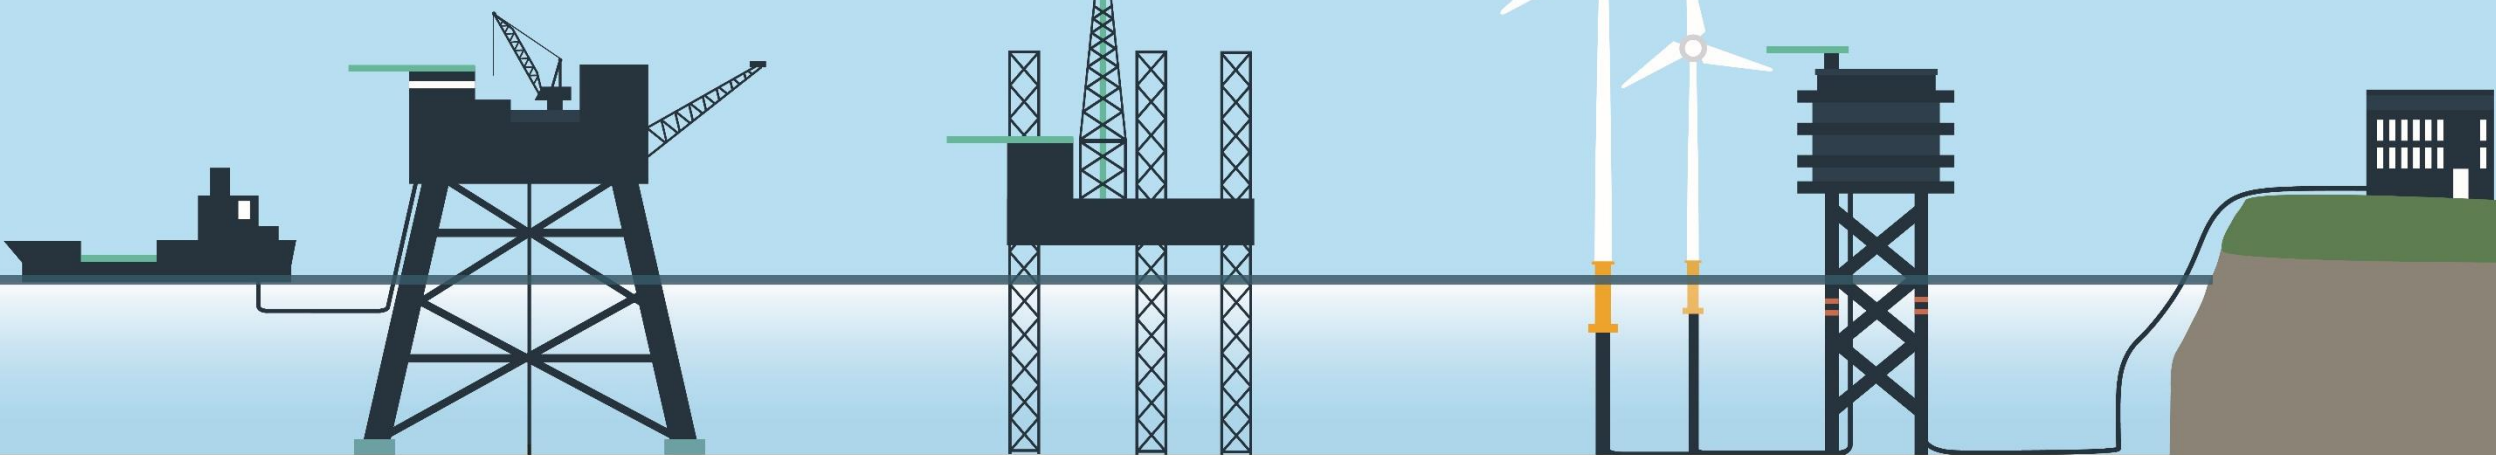

Work with topics such as:

- carbon footprint and reductions
 - engagement across the value chain
 - sustainability data infrastructure
 - waste management
-

Master of Science in Economics and Business Administration –
Management of Innovation and Business Development
from Copenhagen Business School
with a minor in Sustainable Business

Energy pioneers across the offshore industry

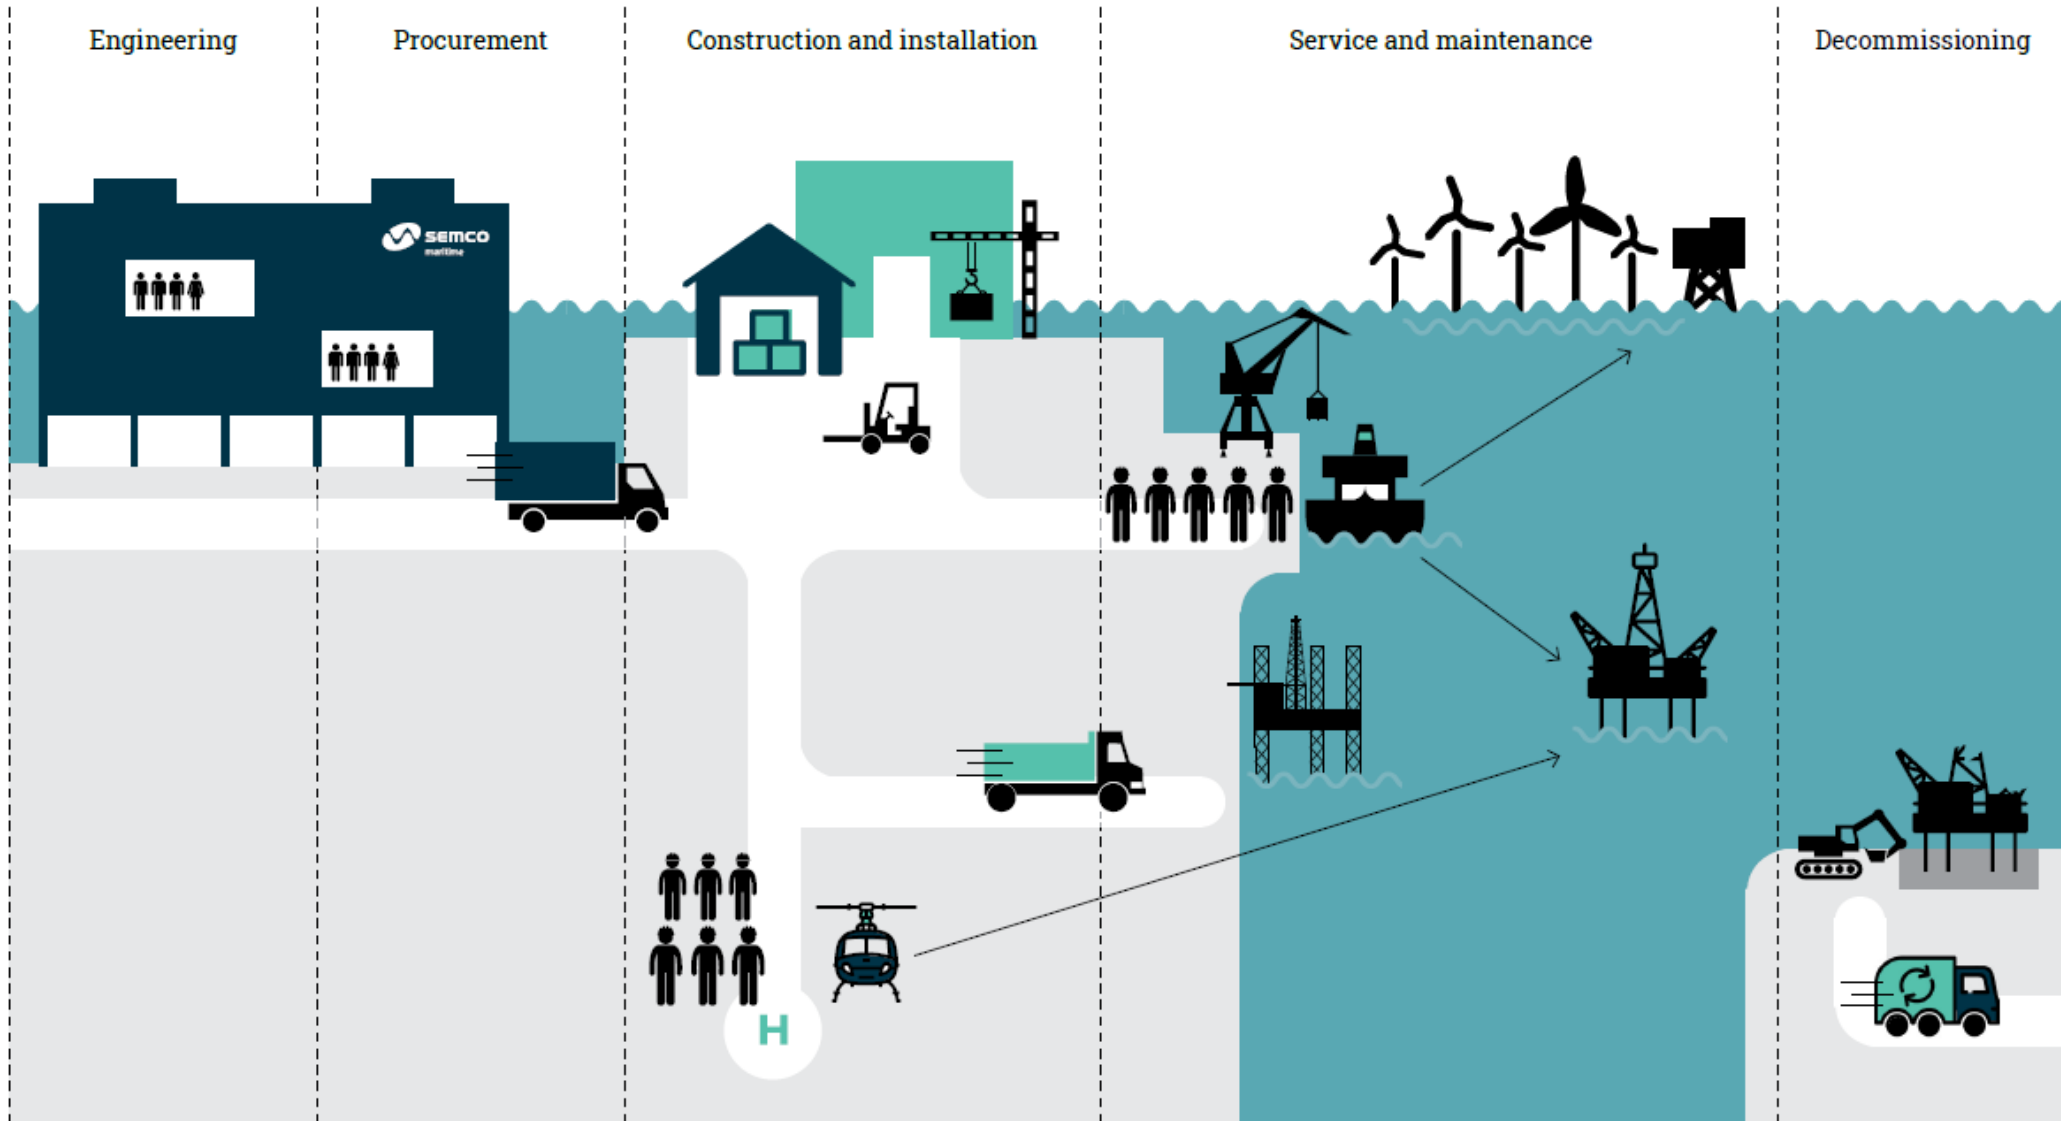

More than 1,000 employees
working in offshore rotation

Revenue in 2021 : 2,4 mDKK
Revenue in 2022 : 3,4 mDKK

EBITDA : 80 mDKK
EBITDA : 204 mDKK

Project life-cycle

Energy pioneers

1980

Our Oil & Gas foundation

In the early 1980s we became an important supplier to the oil majors and rig operators in the North Sea. Everything we have done since then is based on this foundation.

2002

First movers in offshore wind

Our offshore wind adventure starts with our role in the world's first large-scale commercial wind farm.

2018

Let's innovate and co-create!

A dedicated innovation team make, harvest and develop ideas, co-create with our customers and implement new technologies.

2019

First substation order in the US

We celebrate our first substation order in the US: Vineyard Wind. Quickly followed by Mayflower and Virginia.

2020

Culzean and Tyra Future

Our innovative approach, experienced staff and world-class project management skills enable us to succeed with two complex hook-up & commissioning projects.

2021

Taiwanese offshore wind

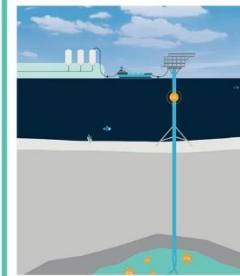

The order for 2 substations for Hai Long 2 and 3 marks our entry into Taiwanese offshore wind.

2021

Carbon capture and storage

Drawing on our oil & gas competencies and experience we provide innovative solutions for storage and transportation of CO₂ to depleted oil reservoirs in the North Sea.

2023

A greener future in sight

We are aiming for carbon neutrality for scope 1 and 2. Revenue split 50/50 between Oil & Gas and Renewables.

Global reach

- local presence close to our customers

 **≈ 2,000**
dedicated employees

-  **Locations:**
- Denmark
 - Norway
 - Germany
 - Poland
 - UK
 - Singapore
 - US

-  **Planned locations:**
- Taiwan
 - New Bedford (US)

It is our responsibility!

We want to use our position and role in the energy business actively to develop innovative and sustainable solutions that will play an important role in the green energy transition.

Steen Brødbæk, CEO

We are committed to ensuring a greener future while making a positive difference for people and planet

Safe and responsible business

With a main focus on health and safety!

Decarbonisation

Aiming at carbon neutrality for scope 1 and 2 in 2023, neutrality for own operations in 2030 and for scope 1-3 in 2050

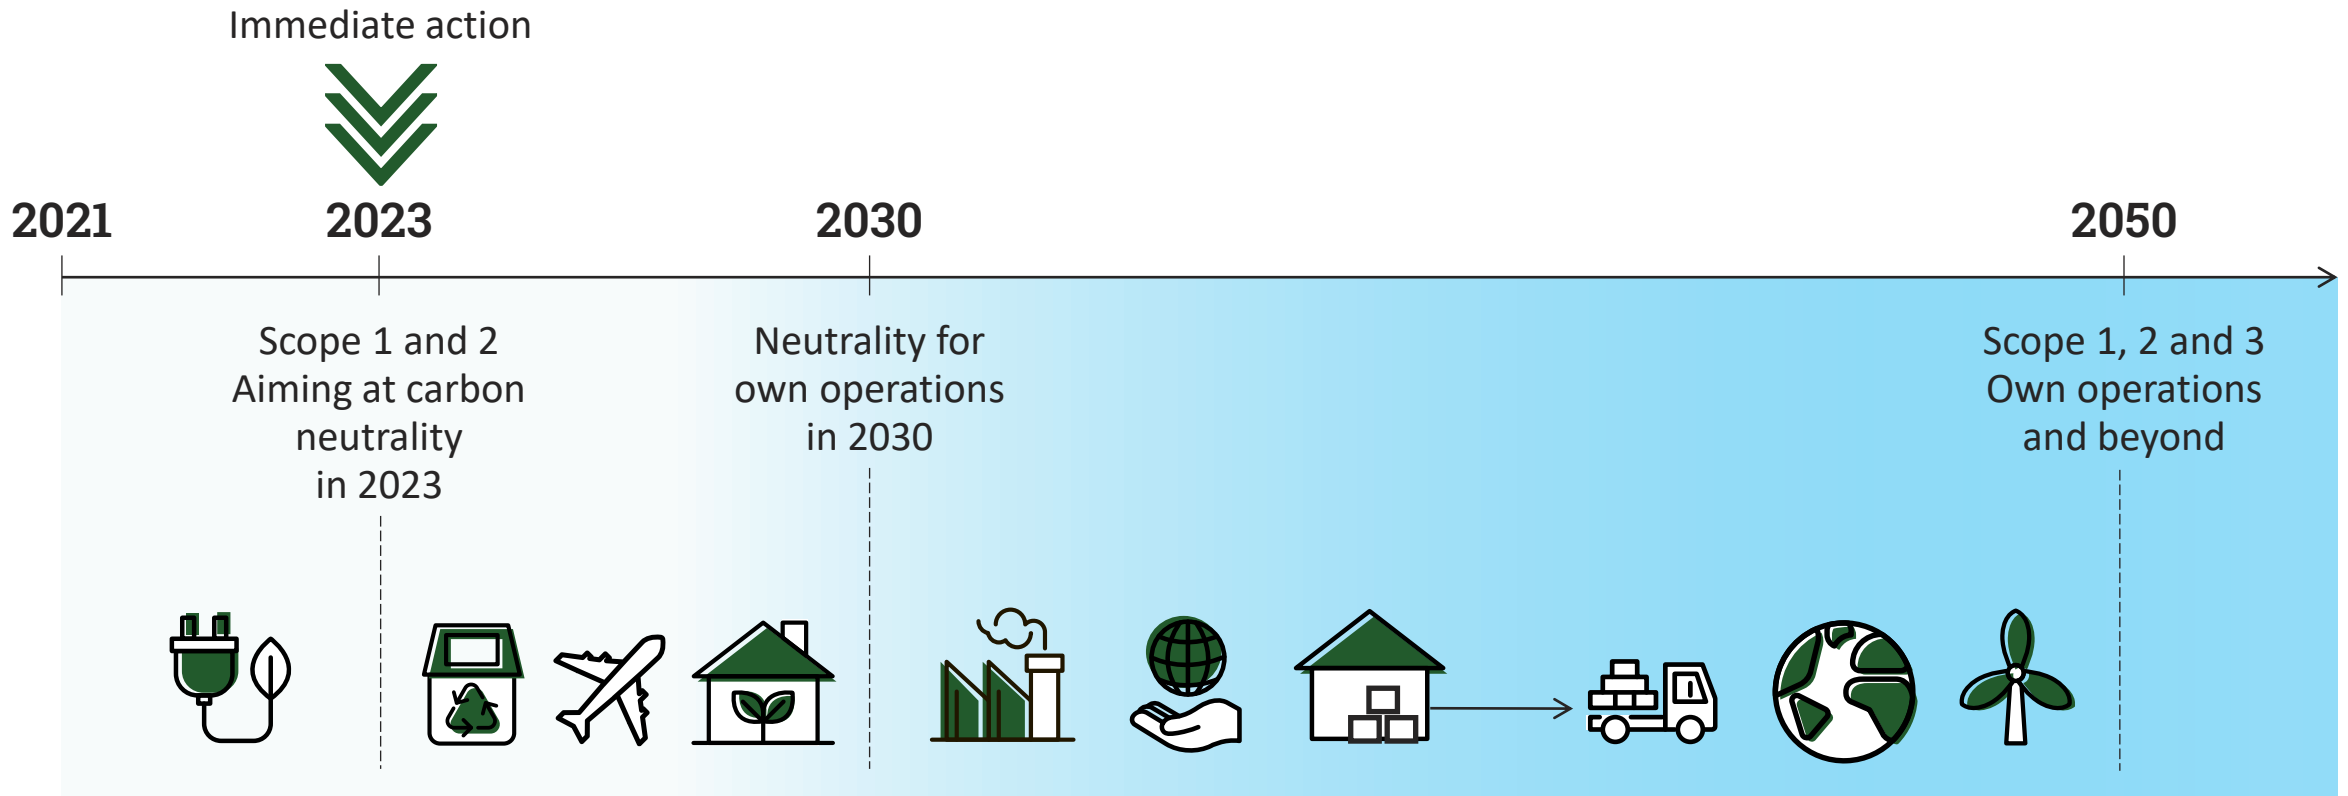

Environmental protection

Focusing on water, waste, pollution and use of natural resources

Erasing our CO2 footprint

Ambitious targets and immediate action
